FEB 1 1977

01

The Honorable Alan Cranston
United States Senate

Dear Senator Cranston:

→ Ms. Nancy Theis of your staff called us on January 19, 1977, to inquire about our efforts to resolve a complaint lodged by Mr. Halley Albertson -- a Beale Air Force Base, California, employee -- concerning the propriety of a shower stall replacement project at Beale] 647

We told Ms. Theis the Air Force Audit Agency at Beale has agreed to look into the matter and would soon be providing us with a report of their findings. Ms. Theis asked us to send you a copy of the report after it was received and reviewed by us.

As agreed, a copy of the Air Force Audit Agency's report is enclosed. We have reviewed the report and discussed the matter with the resident Air Force auditor at Beale and believe a reasonable effort has been made to investigate Mr. Albertson's complaint. We further believe the corrective actions indicated in the report are commensurate with the audit findings.

We trust this information responds to your request. Please advise us if we can be of further assistance.

Sincerely yours,

William N. Conrardy
Regional Manager
