HIGHER EDUCATION

Selected Information on Student Financial Aid Received by Legal Immigrants

Health, Education, and
Human Services Division

B-266308

November 24, 1995

The Honorable Edward M. Kennedy
Ranking Minority Member
Committee on Labor and Human Resources
United States Senate

The Honorable Ileana Ros-Lehtinen
House of Representatives

Over the past year, the Congress has considered a variety of proposals to reform the nation's welfare system. At least two of these proposals would restrict legal immigrants'¹ eligibility for any federal means-tested public benefits programs, including student financial aid programs at colleges, universities, and other postsecondary schools.² To assist you in evaluating the effects of such proposals, you asked us to gather information on (1) the number of legal immigrants that received student financial aid and the amount of aid they received, (2) the states in which they lived, and (3) the types of schools they attended.

To develop this information, we focused our work on Pell grants and Stafford loans, which together accounted for about 85 percent of federal aid to students at postsecondary institutions under title IV of the Higher Education Act of 1965, as amended, during academic year 1992-93. We analyzed Department of Education recipient files for academic year 1992-93, the most recent year for which complete data were available. We performed our work between April and October 1995 in accordance with generally accepted government auditing standards. (See app. I for details of our scope and methodology.)

Results in Brief

According to Department of Education records, about 390,000 legal immigrant students received Pell grant aid in academic year 1992-93. This was about 10 percent of all students receiving Pell grants. In total, immigrants received \$662 million, or about 11 percent, of Pell grant aid in that year. We were unable to determine the total number of legal immigrants who received Stafford loans because citizenship data are not

¹Legal immigrant" is a term used to refer to lawful, permanent residents of the United States or other legally admitted immigrants under certain other U.S. Immigration and Naturalization Service (INS) designations.

²One proposal would require that the income and resources of immigrant students include that of their sponsors. Another proposal would limit eligibility to those who had also fulfilled certain residency requirements and filed a naturalization application, or who were veterans or on active military duty.

maintained in the Department of Education's loan files. However, some immigrants who received Pell grants also received Stafford loans that totaled \$257 million.

About 82 percent of the immigrants who received student financial aid lived in seven states, led by California with 31 percent and New York with 25 percent. Sixty-one percent attended public colleges, 19 percent attended private colleges, and 21 percent attended proprietary (for-profit vocational) schools. The 100 schools with the most immigrant Pell grant recipients accounted for about 50 percent of all such students, and 91 of these schools were located in the seven states with the highest concentration of immigrant students.

Background

Title IV of the Higher Education Act of 1965, as amended, provides an array of student financial aid programs, including grants, loans, and work-study support, to students pursuing a postsecondary education. Legal immigrants may receive aid through some or all of these programs, depending on the cost of the education they are obtaining and the size of their family income. By far, the two largest programs are Pell grants and Stafford loans.

- Pell grants, available only to undergraduate students, are designed to help the neediest students and are the first source of title IV aid. A student must apply for a Pell grant to ascertain Pell eligibility before student financial aid from other programs can be determined. Grants need not be repaid, and the maximum Pell grant award amount in academic year 1992-93 was \$2,400.
- Stafford loans are available to undergraduate and graduate students. Stafford loans may be either government subsidized or unsubsidized, depending on the results of the student's means test. For subsidized loans, the federal government pays the interest on the loan while the student is in school. The student repays the principal and interest on both kinds of Stafford loans after leaving school. In addition, the government also guarantees both kinds of Stafford loans if the borrower defaults.³

To be eligible for federal student aid, a student must be either a U.S. citizen or an "eligible noncitizen." Legal immigrants are included in the definition of eligible noncitizens. More specifically, the Department of Education groups noncitizens into three categories:

³The maximum loan amount varies and depends, in part, on the number of academic years a student has completed. However, the maximum amount of Stafford loans that individual undergraduates and graduates could have outstanding for academic year 1992-93 was \$17,250 and \$54,750, respectively.

-
- lawful permanent residents (who have an Alien Registration Receipt Card);
 - U.S. nationals (natives of American Samoa or Swain's Island); and
 - holders of an Arrival-Departure Record from the INS showing one of the following designations: refugee, asylum granted, indefinite parole and/or humanitarian parole, Cuban-Haitian entrant with status pending, conditional entrant (if issued before April 1, 1980), or other eligible noncitizen with a Temporary Resident Card.

Permanent residents of the Republic of Palau may be eligible for all federal student financial aid. However, citizens of the Federated States of Micronesia and the Republic of the Marshall Islands are eligible for Pell grants but not for Stafford loans. Holders of foreign-student or exchange-visitor visas and those with visas pertaining to international organizations are ineligible to receive federal student aid.

The current congressional debate about reforming the welfare system involves H.R. 4, the proposed Personal Responsibility Act of 1995, which was introduced in March 1995. If enacted, it would restrict legal immigrants' eligibility for any federal means-tested public benefits program, such as title IV financial aid programs. The proposed law would require that the income of the sponsor⁴ and the income of the spouse of an immigrant who meets one of these criteria be included in determining the eligibility of students for program benefits.

Immigrants Were 10 Percent of All Pell Grant Recipients, and Many Also Received Stafford Loans

Legal immigrants constituted about 10 percent of the 4 million Pell grant recipients in academic year 1992-93 (see fig. 1), and they received about 11 percent (\$662 million) of the total Pell grant aid (\$6.2 billion) in that year.

⁴Some legal immigrants are admitted into the country under the financial sponsorship of a U.S. resident.

Figure 1: Composition of Pell Grant Recipients, Academic Year 1992-93

Because Stafford loan files do not include data on citizenship, we were unable to determine how many legal immigrants received Stafford loans. To provide some indication of the extent of legal immigrants' participation in the Stafford program, we determined how many of the legal immigrants who received a Pell grant in academic year 1992-93 also received a Stafford loan. In all, 107,381 of the 390,088 legal immigrants receiving a Pell grant also received a Stafford loan. This figure represented 5 percent of the nearly 2 million students in all who received both forms of aid (see fig. 2). Stafford loan aid to these immigrants totaled about \$257 million, or about 6 percent of all Stafford loans (\$4.5 billion) made to all Pell grant recipients.

Figure 2: Composition of Pell Grant Recipients Who Also Received a Stafford Loan, Academic Year 1992-93

Compared with citizens, immigrants received, on average, slightly larger Pell grants. As shown in figure 3, the average Pell grant for immigrants was \$1,697—10 percent larger than the \$1,526 awarded to citizens. When immigrants who received Pell grants also received Stafford loans, their loans were similarly somewhat larger than citizens' loans. The average Stafford loan for immigrants with Pell grants was \$2,391, 4 percent more than the \$2,297 for citizens.

Figure 3: Average Pell Grant Amounts and Average Stafford Loan Amounts for Pell Grant Recipients, Academic Year 1992-93

Most Immigrant Students Lived in Seven States

About 82 percent of immigrant students who received Pell grants in academic year 1992-93 were concentrated in seven states: California, Florida, Illinois, Massachusetts, New Jersey, New York, and Texas. In contrast, schools in these states accounted for about 38 percent of all Pell grant recipients. Not surprisingly, the two states with the largest populations of legal immigrants—California and New York—accounted for 56 percent of immigrant students and about 57 percent of Pell grant funding for these students (see table 1). For information on all 50 states, see appendixes II and III.

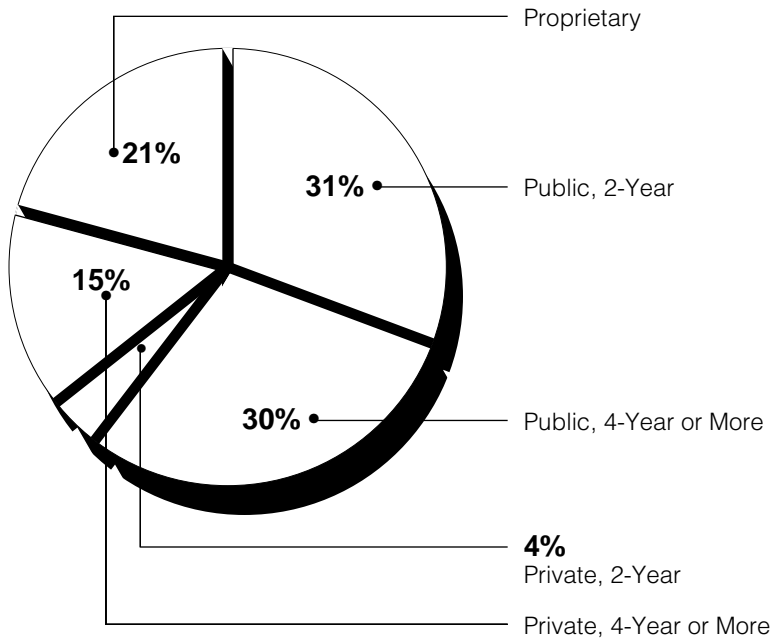

Table 1: Immigrant Pell Grant Recipients—and Aid Amounts—for Selected States of Residence, Academic Year 1992-93

State	Immigrant Pell grant recipients		Pell grant aid to immigrants	
	Number	Percent	Amount (in millions)	Percent
California	120,488	31	\$196.4	30
New York	96,273	25	180.3	27
Florida	30,199	8	49.0	7
Texas	25,997	7	40.5	6
New Jersey	15,723	4	26.3	4
Illinois	14,867	4	24.0	4
Massachusetts	10,044	3	17.4	3
Total	313,591	82	\$533.9	81

Most Immigrant Students Attended Public Colleges or Universities

The majority of immigrant Pell grant recipients—61 percent—attended public colleges or universities (see fig. 4). This is about triple the number that attended private colleges or universities (19 percent) or proprietary schools (21 percent). Appendix IV contains state-by-state information on the type of school immigrants were enrolled in during academic year 1992-93.

Figure 4: Immigrant Pell Grant Recipients by School Type, Academic Year 1992-93

Note: Percentages do not total 100 because of rounding.

100 Schools Accounted for 50 Percent of Immigrant Students

A school-by-school analysis showed that 100 schools accounted for about 50 percent (194,295) of the 390,088 immigrant Pell grant recipients and about 50 percent (\$332 million) of the \$662 million in Pell grant funds awarded to immigrants in academic year 1992-93. Most of these schools (91) were in the seven states where most of the immigrant recipients lived, and 68 schools were in California and New York (see table 2). Appendix V contains information on all 100 schools.

Table 2: The 100 Schools With the Most Immigrant Pell Grant Recipients, by State, Academic Year 1992-93

State	Number of schools in the top 100	Number of immigrant Pell grant recipients	Amount of Pell grant aid to immigrants (in millions)
California	48	71,268	\$116.7
New York	20	74,764	139.8
New Jersey	6	6,716	10.6
Florida	5	13,664	20.8
Texas	5	9,948	14.8
Illinois	4	5,888	8.8

Agency Comments

The Department of Education was provided a draft of this report to review and had no comments.

We are sending copies of this report to the Chairman of the Senate Committee on Labor and Human Resources, the Chairman of the House Committee on Economic and Educational Opportunities, the Secretary of Education, and other interested parties.

Please call me at (202) 512-7014 if you or your staff have any questions about this report. Major contributors included Joseph J. Eglin, Jr., Assistant Director; Paula N. Barnes; Scott M. Berger; Charles M. Novak; Meeta Sharma; Edward H. Tuchman; and Dianne L. Whitman.

Sincerely yours,

Cornelia M. Blanchette

Scope and Methodology

We contacted officials at and reviewed documents from the Department of Education and INS to obtain information on immigration designations and eligibility criteria for federal student aid. We focused our analysis on the Pell grant and Stafford loan programs because they are the largest of the title IV programs, accounting for about 85 percent of all federal aid to students at postsecondary institutions.

To determine the number of legal immigrant students, the amount of aid they received, their place of residence, and the types of schools they attended, we obtained and analyzed three Department of Education databases: the Pell Grant Recipient File, the Stafford Loan File, and the Institutional Data System (IDS). We used the 1992-93 academic year as a base year for our analyses because it was the most recent year for which data were available for Pell grant recipients. We did not verify the data obtained from the Department of Education.

We determined who received a Pell grant, the grant amount, and the recipient's place of residence by performing special computer runs for all Pell Grant Recipient File records for academic year 1992-93. To distinguish immigrants from citizens, we reviewed grant records for codes that related to citizenship. We extracted grant records that had codes of "P," for permanent resident or other eligible noncitizen. The remaining records fell into two categories: those that had codes for other classifications of immigration and citizenship, such as U.S. citizen, and those that were missing codes.

Because they are not U.S. citizens, the permanent residents of Palau and the citizens of the Marshall Islands and the Federated States of Micronesia were included in the "P" category with other permanent residents and eligible noncitizens. However, the residents of these territories are treated as U.S. citizens for eligibility for student financial aid under title IV. The numbers of such students were small, and we did not determine how many of them were actually included as legal immigrants.

In identifying an immigrant student's place of residence, the Pell Grant Recipient File listed all 50 states, the District of Columbia, U.S. territories and commonwealths, and some foreign countries. While individuals holding foreign-student visas are ineligible for student aid, our analyses identified some immigrant Pell grant recipients residing in Canada and Mexico. A representative at the Department of Education's Federal Student Aid Information Center said that legal immigrants with a valid

alien registration number may claim a foreign residence and still receive student aid.

We could not determine the number of immigrants who received Stafford loans or the amounts of such loans because, unlike the Pell Grant Recipient Files, Stafford Loan Files do not identify students' citizenship status. However, we were able to estimate the extent that legal immigrants who had received a Pell grant participated in the Stafford loan program. We performed computer matches between the loan and grant files to identify immigrant/citizen Pell grant recipients for whom there was a corresponding Stafford loan record.

While the Pell grant files contained an institution number to identify the students' schools (reporting campuses), the number did not indicate the type of school or the length of academic program. This information is contained in IDS. To determine the types of schools attended by immigrants, we performed computer matches of Pell Grant Recipient Files and IDS. To identify the 100 schools with the most immigrant Pell grant recipients, we matched Pell Grant Recipient Files with IDS, sorted on the number of immigrant Pell grant records, and extracted the 100 schools with the most records. For each of these schools, we then used IDS to identify school name, location, and type.

**Appendix IV
Immigrant Pell Grant Recipients, by
Residence and School Type, Academic Year
1992-93**

Place of residence	Public schools		Private schools		Proprietary schools	Total immigrant recipients
	≤2 yrs.	≥4 yrs.	≤2 yrs.	≥4 yrs.		
Kentucky	9	396	1	39	38	483
Nevada	105	188	0	3	149	445
South Carolina	227	131	0	55	25	438
Guam	33	321	0	0	0	354
Idaho	61	194	49	9	8	321
Mississippi	110	116	8	32	9	275
New Hampshire	37	60	3	112	56	268
Arkansas	51	151	1	26	18	247
Delaware	85	96	0	17	15	213
Maine	20	105	1	49	23	198
South Dakota	8	62	6	18	74	168
West Virginia	4	93	0	41	23	161
Vermont	31	47	1	76	4	159
Alaska	0	77	0	2	46	125
Virgin Islands	0	117	0	0	0	117
North Dakota	16	81	1	12	4	114
Montana	24	74	0	10	1	109
Wyoming	28	20	0	0	45	93
American Samoa	8	0	0	0	0	8
Total	111,264	106,654	13,828	52,083	74,837	358,666^a
Percentage of total	31.0	29.7	3.9	14.5	20.9	100

^aWhen matching the Pell Grant Recipient File with IDS, no match occurred for 31,422 students. Therefore, the total number of immigrant Pell grant recipients shown by school type is less than the total number of immigrant Pell grant recipients shown in appendix II.

The 100 Schools With the Most Immigrant Pell Grant Recipients, by State, Academic Year 1992-93

School	Public schools		Private schools		Proprietary schools	Immigrant Pell recipients	Immigrant Pell aid	Immigrants as % of all Pell aid
	≤ 2 yrs.	≥ 4 yrs.	≤ 2 yrs.	≥ 4 yrs.				
California (48 schools)								
Glendale Community College	x					2,055	\$2,090,734	78.6
San Francisco Community College District	x					1,774	1,949,721	58.0
Los Angeles City College	x					1,766	2,551,537	74.1
Pasadena City College	x					1,538	1,576,892	55.6
Long Beach City College	x					1,475	1,675,487	34.4
Golden West College	x					1,343	1,513,449	66.5
De Anza College	x					1,316	1,537,060	67.3
Orange Coast College	x					1,263	1,481,988	58.3

Ordering Information

The first copy of each GAO report and testimony is free. Additional copies are \$2 each. Orders should be sent to the following address, accompanied by a check or money order made out to the Superintendent of Documents, when necessary. Orders for 100 or more copies to be mailed to a single address are discounted 25 percent.

Orders by mail:

**U.S. General Accounting Office
P.O. Box 6015
Gaithersburg, MD 20884-6015**

or visit:

**Room 1100
700 4th St. NW (corner of 4th and G Sts. NW)
U.S. General Accounting Office
Washington, DC**

**Orders may also be placed by calling (202) 512-6000
or by using fax number (301) 258-4066, or TDD (301) 413-0006.**

Each day, GAO issues a list of newly available reports and testimony. To receive facsimile copies of the daily list or any list from the past 30 days, please call (202) 512-6000 using a touchtone phone. A recorded menu will provide information on how to obtain these lists.

For information on how to access GAO reports on the INTERNET, send an e-mail message with "info" in the body to:

info@www.gao.gov

**United States
General Accounting Office
Washington, D.C. 20548-0001**

**Bulk Rate
Postage & Fees Paid
GAO
Permit No. G100**

**Official Business
