Recreational Fee Demonstration Program Survey

GAO-02-88SP, November 2001

Introduction

For many years, the Congress has expressed concern about the ability of federal land management agencies to continue providing high-quality recreational opportunities to visitors and to enhance the protection of resources. To address this concern, in 1996, the Congress authorized an experimental initiative called the Recreational Fee Demonstration Program. The program focuses on the activities of four land management agencies: the National Park Service, the Fish and Wildlife Service, and the Bureau of Land Management within the Department of the Interior, and the Forest Service within the Department of Agriculture. Under the fee demonstration program, the participating agencies are authorized to establish, charge, collect, and use fees at a number of sites to enhance visitor services and to protect resources by, for example, developing interpretative exhibits; addressing a backlog of needs for repair and maintenance; and addressing resource management needs. The program applies mainly to two types of visitor fees: "entrance fees" for admission to an area and "user fees" for specific activities, such as camping or launching a boat. The program is currently authorized through September 30, 2004.

At the request of the Ranking Minority Member, Subcommittee on National Parks, Historic Preservation, and Recreation, Senate Committee on Energy and Natural Resources, GAO reviewed the agencies progress in implementing the fee demonstration program. As part of this review, GAO developed an Internet survey and made it accessible to site managers at all 365 fee demonstration sites operating as of September 30, 2000. The survey covered such issues as fee innovations, fee-collection methods, and attempts to coordinate fees with other agencies or nearby sites. In all, managers of 346 of the 365 sites involved in the demonstration program (or 95 percent) completed this survey. This document summarizes the responses of the site managers from the four agencies. The highlights of our analysis of the survey responses are contained in our report entitled *Recreation Fees: Management Improvements Can Help the Demonstration Program Enhance Visitor Services* (GAO-02-10).

GAO contacts: Barry T. Hill or Cliff Fowler on (202) 512-3841.

Coordination of Fees

64. We have defined 'fee coordination' as a situation when one project accepts some or all of the entrance or use fee paid at another project. This definition would not include coordination activities resulting from nationwide programs such as the annual Golden Eagle Passport or the annual National Parks Pass.

During the fee demonstration program, did your project coordinate entrance or use fees or both with any of the following entities?
(CHECK ONE FOR EACH.)

Opinions about a Nationwide Interagency Pass

79. One option to address coordination issues is the creation of a nationwide interagency federal lands recreation pass. The pass would cover not only Department of the Interior agencies but also all other federal recreation providers.

While there is no common definition of what charges such a pass would cover, generally it could be used for entry, general access, and selected general use activities at federally managed recreation sites but would not cover use fees such as camping or boat launch fees. Such a pass would likely replace the existing Golden Eagle Pass and would not cover state or local recreation sites.

	Bureau of Land Management	Fish & Wildlife Service	National Park Service	U.S. Forest Service	Total
80. How do you feel about creating a nationwide interagency federal lands recreation pass? (CHECK ONLY ONE ANSWER)					
Really like the idea	29.7	20.2	12.5	16.0	19.7
Like the idea	18.7	21.4	18.8	33.3	22.5
Are neutral towards	19.8	21.4	28.1	26.7	24.0
Dislike the idea	7.7	10.7	17.7	8.0	11.3
Really dislike the idea	13.2	7.1	13.5	10.7	11.3
No opinion (Click here to go to Q82)	11.0	19.0	9.4	5.3	11.3

Opinions About a Regional Interagency Pass

Another option to address these concerns is the creation of a regional recreation pass. Again this pass would cover not only Department of the Interior agencies but also all other federal recreation providers in the region. In some regions of the country, it might also make sense to include state or local recreation units as well.

While there is no common definition of what charges such a pass would cover, it could be used for entry and or general access to federally managed recreation sites but generally would not cover use fees such as camping or boat launch fees.

	Bureau of Land Management	Fish & Wildlife Service	National Park Service	U.S. Forest Service	Total
92. What is your opinion about the creation of a regional recreation pass in your area that also includes state or local recreation units? (CHECK ONLY ONE ANSWER)					
Really like the idea	11.0	6.0	4.2	6.7	6.9
